Locations and naming conventions are obtained from Oxford Encyclopedia of the Near East, Atlas of PreClassical Upper Mesopotamia (APUM) and ANE Placemarks for Google Earth of Uppsala University. By adhering to these conventions, we hope to maintain standardization in the site inventory, and overcome further confusion by adding secure ancient names of settlements, if available and when possible.

An Atlas of the Cosmos. We've mapped Mars, the Moon, the solar system, ... One of the oldest maps of the world on record in human history comes from the 7th or 6th century in Mesopotamia. ... The survey data from DESI may show that the current understanding of the universe is wrong — this would not be the first time this happened.
