Rethinking Us Security National Security

And yet Congress is about to authorize \$740 billion for the Pentagon next year without rethinking our approach to national security. We are still spending most of these dollars on yesterday's threats. Who would have thought that the best defense against our greatest threat wouldn't be missiles and bombs but masks and ventilators?

Opinion: Rethinking U.S. national security: masks, not ...

Opinion: Rethinking U.S. national security: masks, not ...

The challenge, she said, is how to rethink U.S. national security and defense in a way that reflects long-cherished American principles of openness, freedom and democracy. The current administration's strategy emphasizes interstate competition or great-power rivalries over terrorism and such other issues as nuclear nonproliferation, she said.

If the study reaches similar conclusions, it will awaken society to the need to rethink national security. The report from this study is expected to be available mid-year in 2021. National Security and COVID-19: A few words and a great drawing powerfully communicate that we have defined national security far too narrowly.

Rethinking National Security

"President Trump has an aggressively narrow interpretation of national security," said Kori Schake, the director of foreign and defense policy at the American Enterprise Institute.

Analysis: Will Pandemic Make Trump Rethink National Security?

Much of the United States' focus on national security involves dealing with great powers, especially China and Russia, and terrorist groups, such as the Islamic State, or ISIS. But there is a growing consensus among foreign-policy makers that instability in the developing world complicates these challenges, and produces others, too.

Rethinking U.S. National Security | Foreign Affairs

This interdisciplinary volume sets an agenda for future scholarship that links politics, economics, and history in pursuit of sustainable security for the United States – and greater peace and stability for Americans and non-Americans alike. About Rethinking National Security. The Center for International Policy aims, through the establishment and expansion of this “Rethinking National Security Blog”, to open up the debate about U.S. foreign policy and, more specifically, U.S. national security policy. We believe that there has long been a significant disparity between our espoused national values and goals and our continued policies and funding for outmoded defense programs.

About Rethinking National Security - Rethinking National ...

These steps include launching a public diplomacy campaign educating Americans about biological and environmental threats; devising a comprehensive strategy for responding to those evolving threats; closely considering the link between human security, national security, and international security when crafting the US national security agenda; acknowledging the United States' tendency to conflate threats to US interests and threats to US survival; and finally, increasing diversity within the ...
