31 August 2006

Cases: 134

RS: 0.02%

TA: 7.3 g/L

pH: 3.16

Alcohol: 13.92%

Release Date

15 January 2007

Bright and vibrant, our 2005 Sauvignon Blanc is dominated by pear, lime and flinty citrus flavors that linger with balance onto the finish. Although this can be enjoyed simply by itself, it is a perfect accompaniment for rich, French Cuisine or spicy Pacific Rim seafood.

Our first Skyhawk Sauvignon Blanc intends to display the quality of fruit we receive at our sustainably farmed ranch in the Pope Valley District. The eastern flank of Howell Mountain is well known for producing world-class Sauvignon Blanc. We ferment the lot in stainless steel tanks to highlight the natural freshness of the grape. Also, we inhibit malolactic fermentation to preserve the acidity plus avoid the lees and butter qualities which can mask the true varietal character of Sauvignon Blanc.
