Key indicators on education - OECD

In an evaluation context, indicators provide the information needed to answer the evaluation questions. The figure below shows the types of indicators that can be used to answer questions aimed at different logic model components. From Taylor-Powell, E., Jones, L. " Henert, E. (2002).

Step 3: Set Goals and Indicators | Meera

Indicators have become important in understanding the objectives, processes and outcomes of both the health and education sectors, and their many components. McCall [(McCall, 1996), p. 37] claims there are data that `...describes an activity, condition or feature of a system, and which are often regularly collected by government, institutions and agencies to report on the impact of their systems'.

Developing indicators to enhance school health | Health

...

An indicator is a specific, observable and measurable characteristic that can be used to show changes or progress a programme is making toward achieving a specific outcome. There should be at least one indicator for each outcome. The indicator should be focused, clear and specific.
